

Wave &

Pay even faster
with Visa payWave.

Just Wave & Go

Visa Debit payWave is the latest payment technology that lets you pay faster with less hassle.

The technology built into your card allows you to pay instantly, by waving your card over a secure contactless terminal in stores.

There's no swiping, signing or fumbling for cash. You're ready to go in just a few seconds.

Step 1

Look for the contactless symbol at the point of sale.

Step 2

The cashier enters the purchase amount into the terminal. This amount is displayed on the Visa payWave reader.

Step 3

When the first green light blinks, hold your card over the reader at close range (less than 5 centimetres).

Step 4

Four green lights appear when the transaction is complete. This takes no longer than half a second. You can choose to have a receipt printed, but this is optional. No signature or PIN is required.

Secure, Convenient & Easy to use!

You can Wave & Go when you make purchases up to \$100. And don't worry, you can still use your card for purchases over \$100, you just need to enter your PIN or sign.

You will feel secure knowing your card never leaves your hand and thanks to Visa's security systems, you'll always be protected from unauthorised transactions.

Where can I use Wave & Go?

You can Wave & Go at 7-Eleven, Blockbuster, IGA and Red Rooster, and a range of other Australian retailers with your new Visa Debit payWave card. More retailers are getting Wave & Go technology every single day.

Visa Debit payWave is accepted at more than 174,000 retail locations in 31 countries – so you can Wave & Go right around the globe.

Visit visa.com.au to see where you can use Visa Debit payWave in your local area.

Control of using your own money:
